

Q2 SCOOP

NEW! MindWare Games Sneak Peek....

ZIGGURAT™

A Legacy Adventure Game

A Legacy Game is a tabletop board game whose rules and components change over time based on the outcome of each game played and the unique choices made by the player(s). In Ziggurat, over the course of 6 chapters (6 games), you will make permanent changes to your version of the game. You will add new rules, new materials, and new pieces to the board. Many of these things are hidden at the start of the game.

The ziggurat has been abandoned for centuries. It is old and crumbling. Vines crawl up its side. The winds and rains have washed away its vibrant colors. The village that surrounds the structure has dwindled. People have moved away. But something stirs within its depths. Something awakens.

You have been called upon by the village elders to investigate. Along the way you must navigate ladders, slides and deadly pits — and all while avoiding “fire spirits” that move through each level. Each ascent to the top of the Ziggurat offers more clues and even more challenges. To solve the mystery you and your team must work together to complete each challenge and move to the next level.
